

COLLEGE TENNIS SHOWCASE

13 to 16 July
Leverkusen, Germany

KEYSTONE SPORTS
College Tennis
Showcase

Welcome to the 9th edition of the Keystone Sports Tennis Showcase!

The Showcase takes place from July 13–16, 2023 in Leverkusen, in close proximity to Cologne, Germany, where players from around the world compete for their verified Universal Tennis Rating (at least three matches guaranteed) while showcasing their talents on the court in front of US College Coaches with the goal of securing a potential tennis scholarship. Over the years, we have had more than 750+ players and 330+ coaches attending (including Florida State University, Wake Forest University, NC State University, Ole Miss, Texas Christian University, and the University of California Berkeley, to name just a few) and more than 6 million \$ in scholarships have been distributed to the participating players. Year after year, US College Coaches have taken full advantage of the most recognized college tennis recruiting event in Europe because they receive the players' recruiting profiles with all the necessary information, are able to watch matches live during the event or virtually (live feed and on-demand) on our showcase platform, and schedule talks with potential recruits. It is a unique way for the coaches to recruit international players all in one place.

Increase the chances of receiving a tennis scholarship

All the participating players will get a virtual recruiting profile. This profile includes all the necessary information and will be accessible for the US College Coaches. Three matches are guaranteed for each participant to improve their UTR and show their skills before the showcase in front of the US coaches. The coaches can livestream the matches from all 18 courts or on demand for the best possible exposure.

Boost the recruiting profile and experience

Match tournament footage is often requested by US college coaches. Participating players will get access to this material from the showcase. Furthermore, the players will get the opportunity to record and cut the recruiting video material with help from professionals – a fantastic way to start their promotion.

First-hand information from US College coaches

The event will start with a College Tennis Preparation Day. During this session, current US coaches and experts from Keystone Sports will share important and useful insights about college tennis and the recruitment process.

Extensive information about college tennis and scholarships

Q&A's and presentations by current college tennis players and US coaches will be arranged throughout the event. The participating players will get access to valuable, inside information to further enrich their tennis recruitment experience.
